## PREZNOTES:

Dogs are our link to paradise.  
They don't know evil or jealousy or discontent.  
To sit with a dog on a hillside on a glorious afternoon is to be back in Eden, where doing nothing was not boring- it was peace.  
-Milan Kundera

As I write my final Prez Notes, I am at home, not school, fixated on the events unfolding a short distance from my home. I'm at home because it was too dangerous to send school children out to wait for the bus today in my district. In case you've been in an area without media coverage, I am referring to the approximately 56 exotic animals that were released by their "owner" who then killed himself. He succeeded in creating havoc and tragedy....all of it so senseless. As the experts called for legislation to regulate the sale of exotics it occurred to me that while our state legislature is periodically intently focused on regulating those of us that try to do the right things while breeding dogs, maybe they should shift a bit of that focus toward this much larger and more dangerous problem. I could go on, but once again, I will step down from my soapbox and get to my notes.

By the time you read this, the 2011 specialty will be in the books. I think we should be very pleased with the entry we got, given the fact that there are three other specialties the same weekend, and that dog entries in general have been down. I think Susan and Steve have done a fantastic job jumping through the hoops and organizing. I would like to thank both of them for the time and effort they have put into making what I am sure will be a success out of our annual specialty. Many thanks also to all the others that play a part in that success....there are too many to name individually. That is what makes this all work.

I don't feel that I have done my best job at being President this most recent term; I just haven't had

the time to put into it. I hope I have done at least an adequate job and I have appreciated the help from the club members to make it all work. I still remember sitting in Sally's living room over twenty years ago when a group of us got together to form a Labrador club. As a club we've experienced the typical ups and downs and gone through club growing pains but we did make it to our initial goal, which was putting on a specialty of our own and I think we do that quite well...better than many clubs that have been around much longer.

We are trying out a new meeting spot in November; it is easy to get to, we have our own area and the food is good. The Christmas party is scheduled to take place in December and we will be on for the annual health clinic in March.

Thanks to all who have worked hard in whatever role you played for the last two years; it has been noticed and appreciated. Now go hug a dog and I'll see you at the meeting.

## COLRC's 11th Annual Specialty Show & Supported Entry

Once again we're going to have a great turnout for our Specialty and Supported Entry shows.

On Saturday we have an entry of 40 dogs for Sweeps and 116 Regular Class dogs and 10 Specials. On Sunday there are 100 regular class dogs with 10 Specials.

It'll be a Grand party so I hope to see each and every one of you at the show (unless you're on a Cruise of course).

And if you can believe an extended weather forecast, Saturday is predicted sunny with temperatures in the high 50's and maybe a few clouds on Sunday but highs predicted in the low 60's. Not too hot for the dogs and not too wet for the people.

See you Saturday.
